## TABLE TALKS

Community matters! We find ourselves connected to technology wherever we go, even in our automobiles, airplanes, and in different countries. To say we are connected is an understatement, but we have become so disconnected at the same time. Table Talks is a system (4x6 notecard) with 4 simple questions that are designed to help people connect with people. Connection is one of our core values and we need it now more than ever. Please reach out to Jon for more information on this awesome connection tool.

## EXPERIENCE GOD

Experiencing God day-to-day is so important in our spiritual lives. We have discovered a gem in the resource "Experience God Day-to-Day Devotional by Blackaby. It is a daily devotional tool that literally takes 15 minutes to complete each day. We take this daily commitment to the next level by offering EG groups (Experiencing God groups) that meet monthly to discuss the previous devotions. It is a great way to connect with others and grow individually at the same time. Contact Jon, Jake, Chris, or Brett for more information.

## JON BATCH

Graduation is upon us, the class of 2023 is or has recently walked across the finish line.

Well, they think it is a finish line, but in reality, it is a starting line, too. It is rewarding to see a student succeed in class, socially, spiritually, and in life. We celebrate all the 2023 graduates and pray for all as they begin a new adventure in their new season of life.

Please join me in celebrating and praying for those who have crossed the finish line and starting line.

## TECHNOLOGY

We recently provided a new website for Poseyville GMC and working for three churches as they rebrand and develop a new identity. We are excited to be teaming up with a soon-to-be-coming Dessert Shoppe in Harrison OH. This project will be our tastiest effort yet, as we design a logo and website for their new store. A God-inspired comment: "Your website is your bulletin to those who have yet to join your church, community, or fellowship."

Please reach out to Jon for more web design, and rebranding services today.
